

MINUTES OF THE COMBINED  
MEETING OF COUNCIL

Held Monday, 2009 September 14 at 9:30 a.m.

QUESTION PERIOD:

C) Ammonia Leak (Alderman Ceci)

<p>There was an ammonia leak in and around Lilydale Foods and the Shamrock Hotel in the 21<sup>st</sup> Avenue area of Ramsay the other day. This is the 2<sup>nd</sup> leak in a short time and, although the response of EMS, Calgary Fire Department and others was exemplary, I am wondering what actions the city is taking to ensure that a permanent solution to this problem is found.</p> <p>Mayor Bronconnier responded by indicating that the use of ammonia is a provincially regulated substance, although in the event of an emergency or accident, the City of Calgary is called in to respond. He further stated that provisions to develop a new facility in a more appropriate location have been made, although there has been no progression at this time from the applicant's perspective. He asked the Administration to follow up on this concern.</p>	<p>Alderman Ceci &amp; Mayor Bronconnier &amp; General Manager Planning Development and Assessment &amp; General Manager, Utilities and Environmental Protection</p>
