## **Rink Funding Rejected**

The Ramsay Rink Re-development has recently heard it's been rejected for funding by its granting foundation. The issue of community support and a faction opposed to the rink was one of the reasons cited for being turned down. This is a huge disappointment to the many supporters and volunteers working to update our rink - in fact, according to the Community Association's most recent statistics, the majority of the community supports this project.

If ensuring our children and adults have the right to be active, healthy and gather with their neighbours matters to you; if the revitalization of an existing recreational facility is important to you; please let the Ramsay Community Association Board of Directors know. Their phone numbers and emails are printed in the community newsletter and can be found on <http://www.ramsaycommunity.ab.ca/board.html>.
